

SPEEDWATCH

The SpeedWatch group did several sessions this year.

I did a few on my own.

What with the very wet weather and trying to get everyone together on the only dry day seemed an impossible task, so it was decided to suspend sessions for the time being.

We are still waiting for the contractors to come and change the signage from 40 to 30, after contacting highways last week to see when this would happen.

We have been advised that it has received a challenge from someone or somebody, Kim has resubmitted the paper work and we are hopeful that they see it in our favour once again.

To move forward the group does need more people to come forward to help out with sessions, four people at each session are needed.

I have a short video for you to watch and a form to fill in to comply with the police rules.

School house, Village Hall, Hatley lay by, number 20, and the Tower are approved places for speed watch, others could be added at some point.
